All ZeroG™ products are completely natural, free of artificial food colouring, additives and preservatives.

- **Zero grain** for easy digestion; no wheat, corn, rice, or barley.
- **Zero gluten** for sensitive stomachs and dogs allergic or sensitive to gluten protein in wheat or corn based diets.
- **Zero GMO**, all natural foods with no use of DNA technology.
- **Low GI**, with sweet potato and lentils for steady, sustained release of energy.
- **Balanced fibre**, a blend of soluble and insoluble fibre for gut function and easy passing of stools.
- **Balanced Omega 6 & 3** essential fatty acids, with EPA and DHA EFAs for healthy skin and shiny coat.
- **Chondroitin** for joint and cartilage support.
- **Glucosamine** for cartilage and joint repair.
- **Balanced calcium** for controlled bone growth development.
- **L-Carnitine** for fat metabolism and mitochondrial efficiency.
- **Boosted with chelated trace minerals** for high availability of trace elements, especially zinc for bone strength, muscle development and healthy skin.
- **Supplemental selenium** for reproduction, antioxidants, and brain function.
- **Supplemental iodine** for metabolic control and neurological development.
- **Fruit and vegetables** for well-being, and added fibre, antioxidants and vitamins.
- **Turmeric** for anti-inflammatory functions.
- **Sodium hexametaphosphate** for tartar reduction.
- **Kibble size and density** for dental support.
